MY CURRICULUM VIATE

ELECTRICAL ENGINEERING INTERN • ZIMBABWE POWER COMPANY • JANUARY 2016 To FEB 2018

Worked in the maintenance of stage 1 unit 2 during its outage as the Electrical Attaché in the Turbines division. Helped artisans and technicians in the replacement of old equipment from the turbines. Tested step-up transformers as well as station transformers in the stage 1 unit 2 being supervised by Engineer Sithole Moved to the boiler section of the Engineering Department where I worked with Eng Musariri where we tested Generator Transformers Also worked in the operations department where we would manage the output power and the ash and dust.

Chief Executive Officer • AMIGO SOLUTIONS • JULY 2018 To MAY 2020

Amigo Solutions as a software consultant firm had a pilot software the Amigo Academic Portal. We have managed to bring 13600 users to the platform since its inception. Was responsible for registering the company as Amigo Solutions PBC under the Company Registration of Zimbabwe. Created the software from scratch in June 2018 – July 2018 with friends at the University of Zimbabwe. Responsible for the recruitment of other workers and appointment of the board. Responsible for the pitching of the Generation Unlimited content national and brought \$1000 USD to the company. Responsible for the pitching of the Generation Unlimited International competition which we came international champions that gave the company \$20,000 USD as seed funding to the company.

MY CURRICULUM VIATE

ACHIEVEMENTS

Top 5 UNICEF Generation Unlimited Contest

A 3-day bootcamp was conducted on which we pitched our ideas on the final day at the Cologane Guest House in Greendale. The program was financed by UNICEF in partnership with Boost Fellowship and Generation Unlimited. Amigo came 2nd earning a \$1000 USD seed funding from the competition.

Generation Unlimited national winner (ENACTUS- Boost Fellowship competition)

Participated in a 4-day boot camp in Harare where young and upcoming entrepreneurs were tasked to compete for US\$1000 by coming up with solutions to the 17 Sustainable Development Goals. Had the best solution (Amigo Academic Portal) giving me a chance to proceed to the global competition.

Generation Unlimited Global winner (UNICEF-Generation Unlimited Global competition)

Participated in UNICEF's global co-creation contest which had over 800 participants worldwide. Emerged top 5 after the project my team and I had designed passed innovation, scalability and sustainability tests and also the ability to withstand local and regional competition.
