CORE SKILLS

Dart, JavaScript, Python, Java, Kotlin, Flutter, React, Vue, Node.js, AWS, GCP, Docker, Kubernetes, PostgreSQL, MongoDB, REST APIs, CI/CD, Agile/SCRUM

EXPERIENCE

Senior Mobile Developer – EverythingTech (2022–Present)

- Designed secure, scalable Flutter applications in a high-traffic fintech environment.
- Mentored junior engineers and enforced clean code standards.
- Improved app stability, performance, and release cycles through CI/CD.

Senior Mobile Developer – QUBEDTRUST (2019–2021)

- Built enterprise Flutter apps including the CoreLogic App for U.S. dealerships.
- Delivered logistics and delivery platforms with optimized UX.

Freelance & Project Lead Developer (2018–Present)

- Delivered full-stack mobile and web solutions for global clients.
- Led small teams, designed system architecture, and shipped production apps.

EDUCATION

Certification – Mobile Applications Development, UNESCO (2018–2019)
