Experience

Senior Developer

ModelsLab • Remote

03/2024 - 11/2024

- Developed and maintained backend systems using Laravel for handling AI requests
- Managed a database of over 200,000 users
- Implemented APIs for users on a daily basis
- Processed millions of requests daily
- Optimized system performance for scalability and efficiency
- Collaborated with cross-functional teams to ensure seamless integration of AI technologies

Full Stack Developer

Freelance/Self Employed • Harare, Hre

06/2023 - 03/2024

- Experienced full-stack developer with expertise in Symfony, Laravel, Docker and Spring Framework.
- Successfully modernized legacy codebases for 5 clients, reducing hosting costs by 25%.
- Led backend development for a fintech platform, handling 10,000+ API calls per minute.
- Implemented JWT authentication and RBAC authorization, for a Spring REST API serving 50,000 users.
- Optimized database queries and schema, improving load times by 40% for an e-commerce site. Introduced an ERP for a textile company cutting down paperwork by 75%.

Senior Flutter Developer

Hotbox Marketing Solutions • Harare, Hre

11/2020 - 05/2022

- Conceptualized and architected the Hotbox Marketplace platform, utilizing Flutter, PHP and MySQL to handle over 600,000 users. Led a team of 8 engineers in implementing robust backend infrastructure, leveraging Flutter, ReactJS Framework, and Vue.js for efficient data processing and user interactions.
- Introduced and championed automated QA testing, resulting in a 30% reduction in bugs and a 45% improvement in application performance.
- Orchestrated the successful acquisition of Hotbox Solutions, demonstrating exceptional leadership and business acumen.
-

Senior Laravel Developer

Tradersmark • Harare, Hre

05/2023 - 10/2024

- Spearheaded the backend development of Bophelo Academic Portal (<https://bophelo.online>) , a robust e-learning platform, using Laravel, PHP, and MySQL.
- Set up a scalable cloud infrastructure on AWS to support over 15,000 concurrent users, ensuring seamless performance and reliability. Designed and implemented REST APIs for user authentication, registration, course management, and other essential functionalities for more than 20,000 users.
- Executed agile development processes with Jira and Confluence, delivering new features and improvements on a weekly basis.
- Achieved notable recognition for the platform's innovation and user experience, garnering three international awards.

• Software Developer Intern

Zimbabwe Power Company • Hwange, MN

06/2016 - 08/2018

- Maintained the internal ERP system, a Java application running on a Linux server.
- Managed the company's email infrastructure, ensuring reliable and efficient email delivery.
- Participated in the full lifecycle of plant website, utilizing Java Spring Boot, PHP and SQL Server.
